RSC Meeting on Mar 9-10 at BNL

To discuss progress with realization of the RHIC Cold QCD plan we developed a year ago (arXiv:1602.03922), with focus on forward spectrometer hardware solution(s).

(f)sPHENIX related talks to invite:

- HCal R&D plans at RIKEN: Yuji
- Simulation progress: John L.
- HI interest: Takao
- GEM status/progress (as from EIC R&D): Marcus Hohlmann
- Gas RICH status/progress (as from EIC R&D): Silvia Dalla Torre

Any other suggestions?
